The image features a modern terrace at dusk. The terrace is paved with light-colored tiles and includes a small garden area with several large, rectangular planters containing various plants and trees. In the foreground, there are two black, modern-style chairs with a woven pattern, arranged around a low, round glass-top table. A small, glowing lamp sits on the table. The terrace is enclosed by a building with light-colored walls and dark blue shutters on the windows. A single, illuminated outdoor wall light is mounted on the building's facade. In the background, other buildings are visible, including one with a balcony filled with red flowers. The sky is a soft, hazy blue, suggesting it is either dusk or dawn. The overall atmosphere is calm and sophisticated.

WHAT TO

From the Upper Town funicular to the experience of the Opera at the Donizetti Theatre.

VISIT

Visit all the major places of interest, reach the Upper Town by funicular or walk along the 5km of the Venetian walls of the sixteenth century to discover the medieval fortress and Piazza Vecchia. Experience art at the Accademia Carrara and discover the seventeenth-century Palazzo Moroni and its Italian gardens.

1. REACH CITTÀ ALTA BY FUNICULAR:

For 120 years the funiculars have crossed the walls of Bergamo, connecting the modern centre to the medieval heart of the city. Thanks to the superb view on the way, on arrival it will be love at first sight.

2. VISIT PIAZZA VECCHIA:

Over the centuries the center of the political power of Bergamo, the Piazza overlooks majestic and imposing buildings arranged according to a harmonious and perfect geometry, so much so as to make Le Corbusier say that “you can no longer touch even a stone, it would be a crime”.

3. WALK ALONG THE VENETIAN WALLS:

Walk all 5 km of the Venetian walls, protagonist of the unmistakable skyline of Bergamo. The sunset seen from the stands is priceless, and from the telescopes that you will find along the way you will be able to see Milan.

4. EXPERIENCE ART AT ACCADEMIA CARRARA:

Botticelli, Bellini, Raffaello, Tiziano, Lotto and the great Bergamasco portrait painter Moroni. Meet the great Italian art of the '500, they are all at the Accademia Carrara: its collection is among the most valuable in Europe.

5. LIVE THE OPERA AT THE DONIZETTI THEATRE

Originally called “Riccardi”, after the name of its builder, this place is above all the theater where the works of the great composer from Bergamo Gaetano Donizetti were presented and appreciated by the citizens.

6. VISIT THE MORONI PALACE AND ITS GARDENS

A seventeenth-century palace that preserves decorated, furnished interiors and a rich art collection, as well as an Italian garden and a vast ortaglia that constitute a charming historic park in the heart of Città Alta.

WHAT TO VISIT

A city guide to Bergamo, Italy.

With its hilltop medieval citadel encircled by Venetian walls, views of the snow-capped Alps, a top-notch fine arts museum, and some of the region's best restaurants, Bergamo is more than just a gateway to its starry neighbour Milan.

BY SARAH BARRELL
www.nationalgeographic.co.uk/

Most Italian hilltop towns are hard-won, accessible only for those up to navigating long, winding mountain roads. Not so Bergamo. This vibrant city has all the charm of a remote Tuscan town, but is just 15 minutes' drive from its own international airport. Despite Ryanair putting Bergamo on the radar when it landed at the then tiny airport in 2004, this is still an unsung destination. Often used as a jumping off point for skiers bound for Lombardy's eight mountain resorts, or as gateway to the region's lakes and vineyards, Bergamo also draws fashion-focused travellers who fly in, hit the Orio center mega mall (Italy's largest, adjacent to the airport), or dash to one of Milan's design emporiums, then fly straight out. All of which makes Bergamo's beautiful medieval hilltops even more of an exclusive joy.

In the foothills of the Alps, this is a two-for-one city-break experience with the Città Alta (upper city) and Città Bassa (lower city) offering dramatic contrast. The former is all cobbled streets and narrow vicoli (alleys) overhung with leafy balconies, centred around the small but immaculately formed Piazza Vecchia. Bergamo Alta crackles with medieval atmosphere in winter, overlooked by the austere clock tower that once rang nightly curfew for Bergamaschi to return within the city walls. Then, fanning out beneath the fortifications, Bergamo's other half is a handsome Italian conurbation of wide boulevards, opera houses and buzzing bars. Connecting Bassa and Alta is a 19th-century funicular whose two little red coaches make an almost vertical climb through elegantly stacked gardens and parkland, offering expansive views over the Po Valley's plains: as unexpectedly charming as this two-tiered city itself.

SEE AND DO:

Go to church: Hidden behind the lion-topped loggia overlooking Bergamo Alta's central Piazza Vecchia — a feline symbol of Venetian rule over the city for more than three centuries — you'll find hidden not one but three spectacular religious edifices: the Duomo, Colleoni Chapel and Basilica Santa Maria Maggiore. The latter's plain sandstone exterior belies a boggling confection of marquetry mapping the vast vaulted ceiling — hundreds of limbs and wings of saints and angels intertwined. It's also the burial place of Donizetti, Bergamo's beloved 19th-century bel canto opera maestro. Next door, the pink and white marble Renaissance exterior of Colleoni Chapel signals the resting place of one of Italy's most feared mercenaries, Bartolomeo Colleoni, whose coat of arms features three testicular attributes — he suffered from orchitis so had three testicles — which are often rubbed for good luck.

See the nativity: From November to January, the Duomo Museo displays *La Luce Del Natale nei Tesori Mininati*, nativity scenes set among archaeological treasures from the Cathedral's collection amid foundations honeycombed with Roman ruins. Visit in early December during the Feast of the Immaculate Conception to hear carols broadcast around the cathedral and across Città Alta.

Walk the walls: You can pay to climb Piazza Vecchia's vociferous Campanone bell tower for panoramic views of snow-capped Alps and misty plains but, frankly, Città Alta itself is one big bella vista. Roads and ramparts encircling the hilltop citadel provide endless vertiginous vantages, while the hardworking two-carriage Città Alta Funicular allows easier ascent from new town to old, and equally panoramic views. San Vigilio Funicular climbs higher, for distant views of Milan across agricultural plains and acres of parkland to the northwest. It's like stepping instantly into the quiet, leafy Lombardy countryside.

See priceless paintings: Accademia Carrara hosts some of the greatest hits of Italian art. Some 2,000 works dating from the 15th to the 18th centuries reside in this heavy-hitting provincial museum, with religious and Renaissance masterpieces by the likes of Mantegna, Lorenzo Lotto, Giovanni Bellini, Raphael, Titian and Botticelli.

AFTER HOURS:

Theatre: Bergamo produced one of Italy's most beloved opera composers, Gaetano Donizetti, with twice annual festivals held in his name in November and June. Teatro Donizetti, an 18th-century opera house in Città Bassa, has a year-round season including his works.

Cocktails: Have a pre- or post-opera cocktail at T-Bakery or adjacent Bu Cheese Bar: sleek, late-opening, snack and drinks spots on Città Bassa's Via Petrarca. On Alta's central Via Gombito, Location 58 is the best address for cocktails, in a glam 1950s-style setting, while La Birreria offers a broad selection of craft brews; Il Dispensario does both in an intimate bar on lovely little Piazza Mascheroni, by the north-western wall.
